CRITICAL REVIEW

Energy Requirements for Space Flight. *Helen W. Lane* 13

ARTICLES

Biochemical and Molecular Roles of Nutrients

Thiazolidine-4-Carboxylate and 2-Phenylthiazolidine-4-Carboxylate are Active as Cysteine Precursors but have No Effect on Growth of a Methionine-Dependent Tumor in Rats. *M. Asuncion Recasens, Bernard Possompes, Cécile Astre, Bernard Saint Aubert and Henri Joyeux* 19
Regulation of Hepatic Lipogenic Enzyme Gene Expression by Diet Quantity in Rats Fed a Fat-Free, High Carbohydrate Diet. *Nobuko Iritani, Naomi Nishimoto, Akihiko Katsurada and Hitomi Fukuda.* 28
Wheat Bran and Corn Oil Do Not Influence Proliferation in the Colon of Healthy Rats When Energy Intakes Are Equivalent. *K. Malville-Shipan and S. E. Fleming* 37
Iron Deficiency Alters DMBA-Induced Tumor Burden and Natural Killer Cell Cytotoxicity in Rats. *Amanda T. Spear and Adria Rothman Sherman* 46
Nuclear Zinc Uptake and Interactions and Metallothionein Gene Expression are Influenced by Dietary Zinc in Rats. *Robert J. Cousins and Linda M. Lee-Ambrose* 56
Low Copper Status of Rats Affects Polyunsaturated Fatty Acid Composition of Brain Phospholipids, Unrelated to Neuropathology. *Synthia H-H. Sun and Boyd L. O'Dell* 65
Potentiation of Acute Acetaminophen Lethality by Selenium and Vitamin E Deficiency in Mice. *Francis J. Peterson, Nancy J. Lindemann, Peter H. Duquette and Jordan L. Holtzman* ... 74
High Dietary Taurine Effects on Feline Tissue Taurine Concentrations and Reproductive Performance. *John A. Sturman and Jeffrey M. Messing* 82
Cysteine-Rich Intestinal Protein and Intestinal Methallothionen: An Inverse Relationship as a Conceptual Model for Zinc Absorption in Rats. *James M. Hempe and Robert J. Cousins* 89

Human and Clinical Nutrition

Plasma Carotenoid Levels in Human Subjects Fed a Low Carotenoid Diet. *Cheryl L. Rock, Marian E. Swendseid, Robert A. Jacob and Ralph W. McKee* 96
Depressed Immune Response to Tetanus in Children with Vitamin A Deficiency. *Richard D. Semba, Muhilal, Alan L. Scott, Gantira Natadisastra, Sopandi Wirasasmita, Lisa Mele, Endi Ridwan, Keith P. West, Jr. and Alfred Sommer* 101

Nutrient Metabolism

Dietary Calcium Content, Calcium Balance and Mode of Uptake in a Subterranean Mammal, the Damara Mole-Rat. *Tammy Pitcher, Rochelle Buffenstein, James D. Keegan, Gopal P. Moodley and Shlomo Yahav* 108
β-Carotene Uptake and Tissue Distribution in Ferrets (*Mustela putorius furo*). *Eric T. Gugger, Tiffany L. Bierer, Tonja M. Henze, Wendy S. White and John W. Erdman, Jr.* 115
Postprandial Lipoprotein Composition in Pigs Fed Diets Differing in Type and Amount of Dietary Fat. *Cindie M. Luhman, Terry D. Faidley and Donald C. Beitz* 120
Response of Somatomedins (IGF-I and IGF-II) in Lactating Cows to Variations in Dietary Energy and Protein and Treatment with Recombinant *n*-Methionyl Bovine Somatotropin. *Mark A. McGuire, Dale E. Bauman, Margaret A. Miller and Gary F. Hartnell* 128
Bone Composition and Histology of Young Growing Rats Fed Diets of Varied Calcium Bioavailability: Spinach, Nonfat Dry Milk, or Calcium Carbonate added to Casein. *Catherine A. Peterson, Jo Ann C. Eurell and John W. Erdman, Jr.* 137
Free Fatty Acids in Exercising Arabian Horses Fed Two Common Diets. *Nicole I. Zimmerman, Steven J. Wickler, Anne V. Rodiek and Melissa A. Hower* 145
Determining Optimal Heat Treatment of Soybeans by Measuring Available Lysine Chemically and Biologically with Rats to Maximize Protein Utilization by Ruminants. *Martin A. Faldet, Larry D. Satter and Glen A. Broderick* 151

Nutrient Requirements and Interactions

Dietary Protein, as Egg Albumen: Effects on Bone Composition, Zinc Bioavailability and Zinc Requirements of Rats, Assessed by a Modified Broken-Line Model. *Janet R. Hunt and LuAnn K. Johnson* 161

SYMPOSIUM

Starch Digestion: Understanding and Potential for Improvement

Starch Digestion: Understanding and Potential for Improvement-Introduction. *C. Brent Theurer* ... 170
Starch Digestion and Absorption in Nonruminants. *Gary M. Gray* 172
Starch Hydrolysis by the Ruminal Microflora. *Susan F. Kotarski, Ralph D. Waniska and Kerry K. Thurn* 178
Regulation of Pancreatic Exocrine Secretion in Ruminants: A Review. *Warren James Croom, Jr., Leonard S. Bull and Ian L. Taylor* 191
Dietary Influences on Carbohydrases and Small Intestinal Starch Hydrolysis Capacity in Ruminants. *David L. Harmon* 203

ISSUES AND OPINIONS IN NUTRITION

Assessing the Potential Dietary Impact of Replacing Dietary Fat with Other Macronutrients. *Barbara J. Lyle, Kathleen E. McMahon and Patricia A. Kreutler* 211

Erratum 217
Announcements 218

No. 2 FEBRUARY 1992

ARTICLES

Biochemical and Molecular Roles of Nutrients

Postprandial Lipid Response Following a High Fat Meal in Rats Adapted to Dietary Fiber. *Carol L. Redard, Paul A. Davis, Suzette J. Middleton and Barbara O. Schneeman* 219
Ethanol-Fed Sprague-Dawley Rats Maintain Normal Levels of Insulin-like Growth Factor I. *Daniel J. Smith, Huan Yang, Amy J. Scheff, Stephen A. Ploch and Don S. Schalch* 229
Interaction of Carnitine and Propionate with Pyruvate Oxidation by Hepatocytes from Clofibrate-Treated Rats: Importance of Coenzyme A Availability. *Eric P. Brass* 234
Changes in Pig Serum Lipids, Nutrient Digestibility and Sterol Excretion During Cecal Infusion of Propionate. *Kathleen E. Beaulieu and Michael I. McBurney* 241
Dietary Soluble Fiber and Cholesterol Affect Serum Cholesterol Concentration, Hepatic Portal Venous Short-Chain Fatty Acid Concentrations and Fecal Sterol Excretion in Rats. *Bahram H. Arjmandi, Joungjwa Ahn, Shaheen Nathani and Robert D. Reeves* 246
Profile of Short-Chain Fatty Acids and Rectal Proliferation in Rats Fed Sucrose or Cornstarch Diets. *Franca Bianchini, Giovanna Caderni, Carmela Magno, Giulio Testolin and Piero Dolara* 254
Evaluation of the Preruminant Calf as a Model for the Study of Human Carotenoid Metabolism. *Christopher L. Poor, Tiffany L. Bierer, Neal R. Merchen, George C. Fahey, Jr., Michael R. Murphy and John W. Erdman, Jr.* 262
Various Dietary Fibers Have Different Effects on Lipase-Catalyzed Hydrolysis of Tributyrin in Vitro. *Joey A. Hendrick, Tadahiro Tadokoro, Curt Emenhiser, Uwe Nienaber and Owen R. Fennema* 269
Rat Colonic Antioxidant Status: Interaction of Dietary Fats with 1,2-Dimethylhydrazine Challenge. *Connye Kuratko and Barbara C. Pence* 278
Route of Administration of Trytophan and Tyrosine Affects Short-Term Food Intake and Plasma and Brain Amino Acid Concentrations in Rats. *Lean Teik Ng and G. Harvey Anderson* 283
Atherogenic Diets Enhance Endotoxin-Stimulated Interleukin-1 and Tumor Necrosis Factor Gene Expression in Rabbit Aortae. *James C. Fleet, Steven K. Clinton, Robert N. Salomon, Harald Loppnow and Peter Libby* 294

Human and Clinical Nutrition

The Metabolizable Energy of Diets Differing in Dietary Fat and Fiber Measured in Humans. *Carolyn W. Miles* 306
Dietary Vitamin C Intake and Concentrations in the Body Fluids and Cells of Male Smokers and Nonsmokers. *Mai H. Bui, Alain Sauty, Fabienne Collet and Philippe Leuenberger* 312
Long-Term Wheat Germ Intake Beneficially Affects Plasma Lipids and Lipoproteins in Hypercholesterolemic Human Subjects. *Louis Cara, Martine Armand, Patrick Borel, Michele Senft, Henri Portugal, Anne-Marie Pauli, Huguette Lafont and Denis Lairon* 317

Nutrient Requirements and Interactions

Calcium Carbonate Depresses Iron Bioavailability in Rats More Than Calcium Sulfate or Sodium Carbonate. *Tara A. Prather and Dennis D. Miller* 327

Nutrient Metabolism

Epithelia-Damaging Virus Infections Affect Vitamin A Status in Chickens. *Clive E. West, S. Reinder Sijtsma, Ben Kouwenhoven, Jan H.W.M. Rombout and Akke J. van der Zijpp* 333
A Mixture of Nucleosides and a Nucleotide Alters Hepatic Energy Metabolism 24 Hours After Hepatectomy in Rabbits. *Tetsuya Yamaguchi, Yasutsugu Takada, Yasuyuki Shimahara, Tetsuya Kiuchi, Hiroshi Higashiyama, Keiichiro Mori, Nobuaki Kobayashi, Yoshio Yamaoka and Kazue Ozawa* 340

Replacement of Digestible Wheat Starch by Resistant Cornstarch Alters Splanchnic Metabolism in Rats. *Christine Morand, Christian Rémésy, Marie-Anne Levrat and Christian Demigné* 345
Penicillamine: Pharmacokinetics and Differential Effects on Zinc and Copper Status in Chicks. *Junxuan Lü and Gerald F. Combs, Jr.* 355
Adipose Tissue Lipogenesis and Fat Deposition in Leaner Broiler Chickens. *Harry D. Griffin, Kunde Guo, Dawn Windsor and Simon C. Butterwith* 363
Adrenalectomy Attenuates the Effect of Chemical Castration on Energy Balance in Rats. *D. Ouerghi, S. Rivest and D. Richard* 369
Dietary Fat and Cholesterol Modulate the Plasma Lipoprotein Distribution and Production of Pigment or Cholesterol Gallstones in Hamsters. *K. C. Hayes, Pramod Khosla, Andrea Kaiser, Vartan Yeghiazarians and Andrzej Pronczuk* 374
Amniotic Fluid Composition Responds to Changes in Maternal Dietary Carbohydrate and is Related to Metabolic Status in Term Fetal Rats. *Kristine G. Koski and Marjorie A. Fergusson* 385
Metabolism of [^{14}C]- and [^{32}P]Pyridoxal 5'-Phosphate and [^{3}H]Pyridoxal Administered Intravenously to Pigs and Goats. *Stephen P. Coburn, J. Dennis Mahuren, Maureen S. Kennedy, Wayne E. Schaltenbrand and Douglas W. Townsend* 393

BOOK REVIEW

Nutrient Additions to Food: Nutritional, Technological and Regulatory Aspects. J. Christopher Bauernfiend and Paul A. Lachance, eds. *Reviewed by Guillermo Arroyave* 402

Announcements 403

No. 3 MARCH 1992

BIOGRAPHICAL ARTICLE

Douglas Van Anden Frost (1910–1989). *J. E. Oldfield* 405

CRITICAL REVIEW

Artificial-Rearing Technique: Its Usefulness in Nutrition Research. *Mulchand S. Patel and Bhargava K. Hiremagalur* 412

ARTICLES

Biochemical and Molecular Roles of Nutrients

Cysteine Concentration Regulates Cysteine Metabolism to Glutathione, Sulfate and Taurine in Rat Hepatocytes. *Martha H. Stipanuk, Relicardo M. Coloso, Rolando A. G. Garcia and Mark F. Banks* 420
Zinc Deficiency Alters the Protein Composition of the Membrane Skeleton but not the Extractability or Oligomeric Form of Spectrin in Rat Erythrocyte Membranes. *Ross A. Avery and William J. Bettger* 428
Changes in Plasma Thyroid Hormone Concentrations in Chronically Food-Restricted Female Rats and Their Offspring During Suckling. *Linda V. Oberkotter and Kathleen M. Rasmussen* 435

Human and Clinical Nutrition

Iron Absorption from Bread in Humans: Inhibiting Effects of Cereal Fiber, Phytate and Inositol Phosphates with Different Numbers of Phosphate Groups. *Mats Brune, Lena Rossander-Hultén, Leif Hallberg, Ann Gleerup and Ann-Sofie Sandberg* 442
Purification and Partial Characterization of Cellular Retinol-Binding Protein, Type Two, from Human Small Intestine. *Sanae Inagami and David E. Ong* 450
VLDL Apolipoprotein B-100, a Potential Indicator of the Isotopic Labeling of the Hepatic Protein Synthetic Precursor Pool in Humans: Studies with Multiple Stable Isotopically Labeled Amino Acids. *Peter J. Reeds, David L. Hachey, Bruce W. Patterson, Kathleen J. Motil and Peter D. Klein* 457
A Comparison of the Effects of Beef, Chicken and Fish Protein on Satiety and Amino Acid Profiles in Lean Male Subjects. *Anthony M. Uhe, Greg R. Collier and Kerin O'Dea* 467

Nutrient Metabolism

Bile Acid Metabolism in Rats Fed Two Levels of Corn Oil and Brans of Oat, Rye and Barley and Sugar Beet Fiber. *Daniel D. Gallaher, Patricia L. Locket and Cynthia M. Gallaher* 473
Excess Levels of Cysteine and Homocysteine Induce Tibial Dyschondroplasia in Broiler Chicks. *Michael W. Orth, Yisheng Bai, Ibrahim H. Zeytun and Mark E. Cook* 482
Porcine Skeletal Muscle Myofibrillar Protein Synthesis is Stimulated by Ractopamine. *Olayiwola Adeola, Ronald O. Ball and Leslie G. Young* 488
Dynamic and Static Phases of Severe Dietary Obesity in Sheep: Food Intakes, Endocrinology and Carcass and Organ Chemical Composition. *Joseph P. McCann, Emmett N. Bergman and Donald H. Beermann* 496
Colonic Absorption of Menaquinone-4 and Menaquinone-9 in Rats. *Teruhisa Ichihashi, Yasushi Takagishi, Kiyohisa Uchida and Hideo Yamada* 506
Cholesterol-Lowering in Hamsters Fed Rice Bran at Various Levels, Defatted Rice Bran and Rice Bran Oil. *Talwinder S. Kahlon, Faye I. Chow, Robert N. Sayre and Antoinette A. Betschart* 513
Excessive Cholesterolemic Response in Analbuminemic Rats Fed a Cholesterol-Rich Diet Containing Casein. *Xizhong Zhang, Jaap A. Joles, Hein A. Koomans, Arie Van Tol and Anton C. Beynen* . 520
Feeding Status Affects In Vivo Prosucrase-Isomaltase Processing in Rat Jejunum. *Mary A. Dudley, Buford L. Nichols, Judy Rosenberger, J. Scott Perkinson and Peter J. Reeds* 528

Nutrient Requirements and Interactions

Biotin in Human Milk: Methods, Location and Chemical Form. *Donald M. Mock, Nell I. Mock and Susan E. Langbehn* 535
Secretory Patterns of Biotin in Human Milk. *Donald M. Mock, Nell I. Mock and Jon A. Dankle* . 546
Taurine Balance is Different in Cats Fed Purified and Commercial Diets. *Mary A. Hickman, Quinton R. Rogers and James G. Morris* 553
Reduction of Intestinal Viscosity through Manipulation of Dietary Rye and Pentosanase Concentration is Effected through Changes in the Carbohydrate Composition of the Intestinal Aqueous Phase and Results in Improved Growth Rate and Food Conversion Efficiency of Broiler Chicks. *Michael R. Bedford and Henry L. Classen* 560
Marginal Zinc Deficiency has no Effect on Primary or Challenge Infections in Mice with *Heligmosomoides polygyrus* (Nematoda). *Tracy M. Minkus, Kristine G. Koski and Marilyn E. Scott* . 570
Interaction of Calcium and Phosphate Decreases Ileal Magnesium Solubility and Apparent Magnesium Absorption in Rats. *Elizabeth J. Brink, Anton C. Beynen, Pieter R. Dekker, Emerentia C. H. van Beresteijn and Roelof van der Meer* 580

LETTER TO THE EDITOR

Summary of 1991 Meeting of International Vitamin A Consultative Group Now Available. *Laurie Lindsay Aomari* 587

Erratum 588
Announcements 589

No. 3s MARCH 1992

AIN 1991 SYMPOSIUM PROCEEDINGS

SYMPOSIA

Symposium: History of Nutritional Immunology

History of Nutritional Immunology: Introduction and Overview *William R. Beisel* 591
Protein-Energy Malnutrition and Immunological Responses *Ranjit Kumar Chandra* 597
Vitamins and Immunity *Adrianne Bendich* 601
Zinc, Copper and Iron Nutriture and Immunity *Adria R. Sherman* 604
Dietary Lipids and Immune Function *Patricia A. Maki and Paul M. Newberne* 610

Symposium: Enhancement of Biological Activity by Conjugation Reactions

Enhancement of Biological Activity by Conjugation Reactions *James A. Olson, Richard C. Moon, M. W. Anders, Catherine Fenselau and Barry Shane* 615

Symposium: Regulation of Antioxidant Enzymes

Regulation of Antioxidant Enzymes *Edward D. Harris* 625
OxyR: A Regulator of Antioxidant Genes *Gisela Storz and Louis A. Tartaglia* 627
Oxidants and Antioxidants in Development and Differentiation *R. G. Allen and V. S. Venkatraj.* .. 631
Copper as a Cofactor and Regulator of Copper, Zinc Superoxide Dismutase *Edward D. Harris* 636

Symposium: Current Concepts of Calcium Absorption

Current Concepts of Calcium Absorption: An Overview *Felix Bronner* 641
Intestinal Calcium Absorption: Calcium Entry *Curtis S. Fullmer* 644
Facilitated Diffusion of Calcium across the Rat Intestinal Epithelial Cell *Wilfred D. Stein* 651
Vesicular Calcium Transport in Chick Intestine *Ilka Nemere* 657
Intestinal Calcium Transport and Calcium Extrusion Processes at the Basolateral Membrane *Robert H. Wasserman, John S. Chandler, Sharon A. Meyer, Christiana A. Smith, Marie E. Brindak, Curtis S. Fullmer, John T. Penniston and Rajiv Kumar* 662
Paracellular Calciujm Transport Across the Small Intestine *Ulrich Karbach* 672
Molecular Aspects of the Calbindins *Sylvia Christakos, Rajbir Gill, Sooja Lee and Hui Li* 678
The Use of Pharmacologic Agents to Study Mechanisms of Intestinal Calcium Transport *Murray J. Favus and Vrishali Tembe* 683

Symposium: Application of Models to Determination of Nutrient Requirements

Application of Models to the Determination of Nutrient Requirements: An Overview *Stephen P. Coburn* 687
Introduction to Modeling *Michael H. Green* 690
Resources for Getting Started in Modeling *Jerry C. Collins* 695
Application of Models to Determination of Nutrient Requirements: Experimental Techniques Employing Tracers *C. F. Ramberg, Jr., C. R. Krishnamurti, D. Peter, J. E. Wolff and R. C. Boston* 701
The Determination of Nutritional Requirements: Mathematical Modeling of Nutrient-Response Curves *L. Preston Mercer* 706
Development of a Model for Selenite Metabolism in Humans *Blossom H. Patterson and Loren A. Zech* 709

Symposium: Nutrition, Immunomodulation and AIDS

Nutrition, Immunomodulation and AIDS: An Overview *Ronald Ross Watson* 715
Potential of Diet Therapy on Murine AIDS *Gabriel Fernandes, Vikram Tomar, Mohan N. Venkatraman and Jaya T. Venkatraman* 716
Nutritional Effects and Support in the Patient with Acquired Immunodeficiency Syndrome *Donald P. Kotler* 723
A Preliminary Trial of Beta-Carotene in Subjects Infected with the Human Immunodeficiency Virus *Harinder S. Garewal, Neil M. Ampel, Ronald R. Watson, Rao H. Prabhala and Cynthia L. Dols* 728
Role of Alcohol Abuse in Nutritional Immunosuppression *Bernhard Watzl and Ronald R. Watson* 733
Immunosuppression and Alteration of Resistance to Pulmonary Tuberculosis in Guinea Pigs by Protein Undernutrition *David N. McMurray and Rebecca A. Bartow* 738
LP-BM5, a Murine Model of Acquired Immunodeficiency Syndrome: Role of Cocaine, Morphine, Alcohol and Carotenoids in Nutritional Immunomodulation *Ronald Ross Watson* 744
The Role of the Cytokines, Interferon Alpha and Tumor Necrosis Factor in the Hypertriglyceridemia and Wasting of AIDS *Carl Grunfeld and Kenneth R. Feingold* 749
Nutrition and Immunoregulation. Significance for Host Resistance to Tumors and Infectious Diseases in Humans and Rodents *Ranjit Kumar Chandra* 754

Symposium: Nutrition and Exercise

Nutrition and Exercise Introduction and Overview *Lester Packer and Vishwa N. Singh* 758
A Current Perspective on Nutrition and Exercise *Vishwa N. Singh* 760
Exercise, Oxidative Damage and Effects of Antioxidant Manipulation *Eric H. Witt, Abraham Z. Reznick, Christine A. Viguie, Pamela Starke-Reed and Lester Packer* 766
Exercise and Food Restriction in Rats *John O. Holloszy* 774
Nutrition at High Altitude *Irene M. Simon-Schnass* 778
Exercise and Iron Status *Connie M. Weaver and Sujatha Rajaram* 782
Carbohydrate Supplementation during Exercise *Edward F. Coyle* 788
Exercise, Nutrition and Aging *William J. Evans* 796

CONFERENCES

Conference: In Vitro Approaches to Understanding Growth and Development

The Use of Avian Epiphyseal Chondrocytes for In Vitro Studies of Skeletal Metabolism *Roland M. Leach and Gaston E. Rosselot* 802
In Vitro Systems for the Analysis of the Development of Adipose Tissue in Domestic Animals *Timothy G. Ramsay, S. V. Rao and C. K. Wolverton* 806
Cell Culture as a Tool for the Study of Poultry Skeletal Muscle Development *Douglas C. McFarland* 818

Conference: Hepatic Metabolism of Organic Acids in Ruminants

Hepatic Metabolism of Organic Acids in Ruminants: Introduction *Donald C. Beitz* 830
Metabolism of Long Chain Fatty Acids by Ruminant Liver *Roy S. Emery, James S. Liesman and Thomas H. Herdt* 832
Ruminant Hepatic Metabolism of Volatile Fatty Acids, Lactate and Pyruvate *Louis E. Armentano* 838
Metabolic Heterogeneity of Hepatocytes across the Liver Acinus *Norbert R. Katz* 843
Metabolism of Nitrogenous Compounds by Ruminant Liver *Christopher K. Reynolds* 850

MINISYMPOSIUM

Minisymposium: Effect of Partitioning Agents on Nutrient Requirements

Impact of Somatotropins on Nutrient Requirements in Domestic Animals *Robert J. Collier, John L. Vicini, Christopher D. Knight, Carol L. McLaughlin and Clifton A. Baile* 855

No. 4 APRIL 1992

BIOGRAPHICAL ARTICLE

Kendall Willard King (1926–1990). *George Edwin Bunce* 861

ARTICLES

Biochemical and Molecular Roles of Nutrients

Regulation of Hepatic Transthyretin Messenger RNA Levels during Moderate Protein and Food Restriction in Rats. *Béatrice Le Moullac, Patricia Gouache and Fanny Bleiberg-Daniel* 864

Collagen Synthesis in Human Skin Fibroblasts is Stimulated by a Stable Form of Ascorbate, 2-*O*-α-D-Glucopyranosyl-L-Ascorbic Acid. *Itaru Yamamoto, Norio Muto, Kouki Murakami and Jun-Ichi Akiyama* 871

Comparison of Constant Infusion and Flooding Dose Techniques to Measure Muscle Protein Synthesis Rate in Dogs. *Farook Jahoor, Xiao-Jun Zhang, Hidefumi Baba, Yoichi Sakurai and Robert R. Wolfe* 878

Folate Deficiency Alone Does Not Produce Neural Tube Defects in Mice. *Mary K. Heid, Nathan D. Bills, Steven H. Hinrichs and Andrew J. Clifford* 888

Dietary Glucose and Fat Attenuate Effects of Adrenalectomy on Energy Balance in *ob/ob* Mice. *Jin-Soon Kang, James D. Pilkington, Deborah Ferguson, Hye-Kyung Kim and Dale R. Romsos*..... 895

The Influence of Dietary Fiber on Proliferation of Intestinal Mucosal Cells in Miniature Swine May Not Be Mediated Primarily by Fermentation. *S. E. Fleming, M. D. Fitch and S. De Vries*..... 906

Age- and Dietary Fat–Related Effects on Biliary Lipids and Cholesterol Gallstone Formation in African Green Monkeys. *Martin W. Scobey, Mary S. Wolfe and Lawrence L. Rudel*..... 917

Human and Clinical Nutrition

Shifting from a Conventional Diet to an Uncooked Vegan Diet Reversibly Alters Fecal Hydrolytic Activities in Humans. *Wen Hua Ling and Osmo Hänninen*..... 924

Nutrient Metabolism

Hyperresponsiveness to Dietary Cholesterol in Inbred Rabbits Is Not Associated with Enhanced Reduction in Binding of β-VLDL to Liver Membranes. *G. W. Meijer, A. C. Beynen, M. R. Lovati, C. Manzoni, L.F.M. Van Zutphen and C. R. Sirtori*..... 931

Cytochrome b_5/Cytochrome b_5 Reductase Complex in Rat Liver Microsomes has NADH-Linked Aquacobalamin Reductase Activity. *Fumio Watanabe, Yoshihisa Nakano, Hisako Saido, Yoshiyuki Tamura and Hiroyuki Yamanaka*..... 940

The Mechanisms of Nonheme Iron Uptake Determined in IEC-6 Rat Intestinal Cells. *Gary M. Nichols, Allen R. Pearce, Xavier Alverez, Nancy K. Bibb, Khanh Y. Nichols, Charlotte B. Alfred and Jonathan Glass* 945
Comparative Metabolism of Phylloquinone and Menaquinone-9 in Rat Liver. *Birgit H. Will and J. W. Suttie* 953
L-Carnitine Administration and Withdrawal Affect Plasma and Hepatic Carnitine Concentrations, Plasma Lipid and Lipoprotein Composition, and In Vitro Hepatic Lipogenesis from Labeled Mevalonate and Oleate in Normal Rabbits. *Frank P. Bell, Thomas J. Vidmar and Thomas L. Raymond* 959
Changes in Liver Structure and Function after Short-Term and Long-Term Treatment of Rats with Dehydroepiandrosterone. *Monica Bellei, Daniela Battelli, Claudio Fornieri, Giuseppe Mori, Umberto Muscatello, Henry Lardy and Valentina Bobyleva* 967
Incorporation of ^{3}H-Label from Folic Acid is Tissue-Dependent in Folate-Deficient Rats. *Bernard H. Eisenga, Timothy D. Collins and Kenneth E. McMartin* 977

Nutrient Requirements and Interactions

Long-Term Folate Deficiency Alters Folate Content and Distribution Differentially in Rat Tissues. *Gregorio Varela-Moreiras and Jacob Selhub* 986
Voluntary Intake, Milk Production and Plasma Metabolites in Nursing Mares Fed Two Different Diets. *Michel Doreau, Sylviane Boulot, Dominique Bauchart, Jean-Pierre Barlet and William Martin-Rosset* 992
Reexamination of Protein Requirements in Adult Male Humans by End-Product Measurements of Leucine and Lysine Metabolism. *Gordon A. Zello, Joseph Telch, Ruth Clarke, Ronald O. Ball and Paul B. Pencharz* 1000
Dietary (*n*-3) Fatty Acid and Vitamin E Interactions in Rats: Effects on Vitamin E Status, Immune Cell Prostaglandin E Production and Primary Antibody Response. *Kevin L. Fritsche, Nancy A. Cassity and Shu-Cai Huang* 1009
Dietary Protein Source (Soybean vs. Casein) and Taurine Status Affect Kinetics of the Enterohepatic Circulation of Taurocholic Acid in Cats. *Mary A. Hickman, Michael L. Bruss, James G. Morris and Quinton R. Rogers* 1019
Pyridoxine-5′-β-D-Glucoside Affects the Metabolic Utilization of Pyridoxine in Rats. *Joyce A. Gilbert and Jesse F. Gregory III* 1029
Molybdenum Requirement of Female Rats. *Xingjia Wang, Donald Oberleas, Meiling T. Yang and Shiang P. Yang* 1036

Announcements 1042

No. 5 MAY 1992

ARTICLES

Biochemical and Molecular Roles of Nutrients

Lymph Chylomicron Composition and Size are Modified by Level of Intestinally Infused Cholesterol and Triglyceride Source in Rats. *Theodore J. Kalogeris and Jon A. Story* 1045
Energy Restriction and Testosterone Implants Alter Ornithine Decarboxylase Gene Expression in Kidney of Female Rats. *Myunggi Baik, Robert L. Harrold, Chang B. Choi, William D. Slanger, Chang K. Sung and Chung S. Park* 1056
Retinoid Repletion of Vitamin A–Deficient Mice Restores IgG Responses. *Tae Yon Chun, Julie A. Carman and Colleen E. Hayes* 1062
Barley Diets with Different Fat Sources have Hypocholesterolemic Effects in Chicks. *Virginia M. Martinez, Rosemary K. Newman and C. Walter Newman* 1070
Dietary Fish Oil Modulates the Alkaline Phosphatase Activity and not the Fluidity of Rat Intestinal Microvillus Membrane. *Rachel Wahnon, Uri Cogan and Shoshana Mokady* 1077

Studies with Compounds that Compete with Tryptophan Binding to Rat Hepatic Nuclei. *Herschel Sidransky, Ethel Verney, James W. Cosgrove and Arnold M. Schwartz* 1085
Incorporation of [^{3}H]Proline into Collagen and Other Proteins in Rats Fed Diets with Various Zinc Concentrations. *Christopher J. Bates and Peter H. Evans* 1096

Community and International Nutrition

The Association between Wasting and Stunting: An International Perspective. *Cesar G. Victora*... 1105

Human and Clinical Nutrition

Cellular Ascorbate Depletion in Healthy Men. *Robert A. Jacob, Frederick S. Pianalto and Robert E. Agee* 1111
Calcium Metabolism in Postmenopausal Osteoporotic Women is Determined by Dietary Calcium and Coffee Intake. *Claus Hasling, Karen Søndergaard, Peder Charles and Leif Mosekilde* 1119

Nutrient Metabolism

Net Renal Arginine Flux in Rats is Not Affected By Dietary Arginine or Dietary Protein Intake. *Srinivas N. Dhanakoti, John T. Brosnan, Margaret E. Brosnan and Gene R. Herzberg* 1127
Urinary Taurine Excretion as a Function of Taurine Intake in Adult Cats. *Eric N. Glass, Jack Odle and David H. Baker* 1135
Changes in Liver Concentration of *N*-Acetylglutamate and Ornithine are Involved in Regulating Urea Synthesis in Rats Treated with Thyroid Hormone. *Kazutoshi Hayase, Goro Yonekawa and Akira Yoshida* 1143
Developmental Changes in Glucose and Butyrate Metabolism by Isolated Sheep Ruminal Cells. *R. L. Baldwin VI and B. W. Jesse* 1149
Methionine Intake in Rainbow Trout (*Oncorhynchus mykiss*), Relationship to Cataract Formation and the Metabolism of Methionine. *Colin B. Cowey, C. Young Cho, Jacob G. Sivak, Judy A. Weerheim and Darrin D. Stuart* 1154
Secretion of Lipoprotein Cholesterol by Perfused Livers from Rabbits Hypo- or Hyperresponsive to Dietary Cholesterol: Greater Dietary Cholesterol-Induced Secretion in Hyperresponsive Rabbits. *G. W. Meijer, J.G.P. Van Der Palen, M.J.H. Geelen, A. Versluis, L.F.M. Van Zutphen and A. C. Beynen* 1164

Nutrient Requirements and Interactions

Type of Dietary Carbohydrate Affects Thyroid Hormone Deiodination in Iron-Deficient Rats. *Scott M. Smith and Henry C. Lukaski* 1174
Protein Insufficiency Aggravates the Enhanced Lipid Peroxidation and Reduced Activities of Antioxidative Enzymes in Rats Fed Diets High In Polyunsaturated Fat. *Ching-Jang Huang and Ming-Ling Fwu*..... 1182
Soybean Protein Isolate and Soybean Lectin Inhibit Iron Absorption in Rats. *Sanae Hisayasu, Hideo Orimo, Setsuko Migita, Yuki Ikeda, Kuminko Satoh, Setsuko Shinjo (Kanda), Yukihiko Hirai and Yoshio Yoshino*..... 1190

Announcements 1197

No. 6 JUNE 1992

ARTICLES

Biochemical and Molecular Roles of Nutrients

Copper Deficiency Alters Plasma Pool Size, Percent Composition and Concentration of Lipoprotein Components in Rats. *Abdullah A. Al-Othman, Fumiko Rosenstein and Kai Y. Lei*..... 1199

Porcine Colostrum and Milk Stimulate Visceral Organ and Skeletal Muscle Protein Synthesis in Neonatal Piglets. *Douglas G. Burrin, Robert J. Shulman, Peter J. Reeds, Teresa A. Davis and Karen R. Gravitt* 1205
The Murine Mutation, Lethal Milk, Results in Production of Zinc-Deficient Milk. *M. Leigh Ackland and Julian F. B. Mercer* 1214
Dietary Fat Influences Ia Antigen Expression and Immune Cell Populations in the Murine Peritoneum and Spleen. *Shu-Cai Huang, Michael L. Misfeldt and Kevin L. Fritsche* 1219
Cephaloridine Nephrotoxicity is Potentiated by Selenium Deficiency but not Copper Deficiency in Rats. *Sandra E. Kays, Wayne A. Crowell and Mary Ann Johnson* 1232
Zinc Deficiency Alters Barrier Function of Cultured Porcine Endothelial Cells. *Bernhard Hennig, Yin Wang, Santhini Ramasamy and Craig J. McClain* 1242
Retinol Stimulates Golgi Apparatus Activity in Cultured Bovine Mammary Gland Epithelial Cells. *Dorothy M. Morré, Herbert Spring, Michael Trendelenburg, Marcus Montag, Barbara A. Mollenhauer, Hilton H. Mollenhauer and D. James Morré* 1248
Hepatic Metallothionein Gene Expression in Toxic Milk Mice. *Julian F. B. Mercer, Andrew Grimes and Harold Rauch* 1254

Nutrient Metabolism

The Accumulation of Copper by Microvillar Vesicles Isolated from Human Placenta. *Harry J. McArdle and Gerrit J. van den Berg* 1260
Metabolism and Disposition of Erythritol after Oral Administration to Rats. *Kyoji Noda and Tsuneyuki Oku* 1266
Glucocorticoids Inhibit Intestinal Phosphate Absorption in Developing Rabbits. *Stephen M. Borowitz and Garth S. Granrud* 1273
Metabolic Responses Induced by Isoproterenol in Ractopamine-Fed Pigs. *Olayiwola Adeola, Brian W. McBride and Leslie G. Young* 1280
Iron Absorption Differs in Piglets Fed Extrinsically and Intrinsically ^{59}Fe-Labeled Sow's Milk. *Johannes Gislason, Bernt Jones, Bo Lönnerdal and Leif Hambraeus* 1287
In Vivo Folate Kinetics During Chronic Supplementation of Human Subjects with Deuterium-Labeled Folic Acid. *Arlene E. Von Der Porten, Jesse F. Gregory III, John P. Toth, James J. Cerda, Stephen H. Curry and Lynn B. Bailey* 1293
Varying Levels of Manganese and Iron Affect Absorption and Gut Endogenous Losses of Manganese by Rats. *Cindy D. Davis, Terry L. Wolf and J. L. Greger* 1300
Life Span is Shortened in BHE/cdb Rats Fed a Diet Containing 9% Menhaden Oil and 1% Corn Oil. *Carolyn D. Berdanier, Brian Johnson, Diane K. Hartle and Wayne Crowell* 1309

Nutrient Requirements and Interactions

Cholesterol-Lowering Effects and Utilization of Protein, Lipid, Fiber and Energy in Rats Fed Unprocessed and Baked Oat Bran. *Remi De Schrijver, Dirk Fremaut and Annick Verheyen* 1318
The Magnitude of the Acute Phase Protein Response is Attenuated by Protein Deficiency in Rats. *Graham Jennings, Christelle Bourgeois and Marinos Elia* 1325
The Dietary Lysine Requirements of Juvenile Hybrid Striped Bass. *Mark E. Griffin, Paul B. Brown and Alan L. Grant* 1332
Normalization of Serum Calcium Restores Fertility in Vitamin D–Deficient Male Rats. *Ann M. Uhland, Gary G. Kwiecinski and Hector F. DeLuca* 1338

BOOK REVIEW

A Basic Science Primer in Orthopaedics. Felix Bronner and Richard V. Worrell, eds. *Reviewed by Peter C. Belonje* 1345

Invitation for Nominations for 1993 1346
Announcements 1349

ARTICLES

Biochemical and Molecular Roles of Nutrients

Dietary Calcium Modifies Organ Concentrations of Lead and Other Metals and Renal Calbindin in Rats. *John D. Bogden, Sheldon B. Gertner, Sylvia Christakos, Francis W. Kemp, Zhengang Yang, Suzanne R. Katz and Ching Chu* 1351

Age, Dietary Selenium and Quantity of 7,12-Dimethylbenz(a)anthracene Influence the In Vivo Occurrence of Rat Mammary DNA Adducts. *Jin-Zhou Liu and John A. Milner* 1361

Taurine and Serine Supplementation Modulates the Metabolic Response to Tumor Necrosis Factor α in Rats Fed a Low Protein Diet. *Chitra Pathirana and Robert F. Grimble* 1369

Protein Deficiency Impairs Erythropoiesis in Rats by Reducing Serum Erythropoietin Concentration and the Population Size of Erythroid Precursor Cells. *Masaki Okano, Hideki Ohnota and Ryuzo Sasaki.* 1376

Cobalt-Vitamin B-12 Deficiency Decreases Methionine Synthase Activity and Phospholipid Methylation in Sheep. *D. Glenn Kennedy, W. John Blanchflower, John M. Scott, Donald G. Weir, Anne M. Molloy, Seamus Kennedy and Paul B. Young* 1384

Methyl Group Metabolism in the Pancreas of Folate-Deficient Rats. *Mesbaheddin Balaghi and Conrad Wagner* 1391

Dietary Cholesterol and Type of Fat Differentially Affect Cholesterol Metabolism and Atherosclerosis in Baboons. *Glen E. Mott, Evelyn M. Jackson, C. Alex McMahan and Henry C. McGill, Jr.* 1397

Human and Clinical Nutrition

Raw Soybeans Stimulate Human Pancreatic Proteinase Secretion. *Halvor Holm, Janne E. Reseland, Lill I. Thorsen, Audun Flatmark and Lars E. Hanssen* 1407

Iron Nutrition Does Not Account for the Hemoglobin Differences between Blacks and Whites. *Geraldine S. Perry, Tim Byers, Ray Yip and Sheldon Margen* 1417

Nutrient Metabolism

A Method for Estimating the Available Energy of Incompletely Digested Carbohydrates in Rats. *Norbert-Ch. Juhr and Jürgen Franke* 1425

Gastric and Pancreatic Enzyme Activities and their Relationship with Some Gut Regulatory Peptides during Postnatal Development and Weaning in Calves. *Isabelle Le Huerou-Luron, Paul Guilloteau, Catherine Wicker-Planquart, Jean-Alain Chayvialle, John Burton, Aziz Mouats, Rene Toullec and Antoine Puigserver* 1434

Mitotic Activity in Mice is Suppressed by Energy Restriction-Induced Torpor. *Akio Koizumi, Mikako Tsukada, Yasuhiko Wada, Hirotake Masuda and Richard Weindruch* 1446

Sodium-Dependent Transport of Riboflavin in Brush Border Membrane Vesicles of Rat Small Intestine is an Electrogenic Process. *Hannelore Daniel and Gertrud I. Rehner* 1454

Retention of ^{14}C Label is Lower in Old than in Young Wistar Rats after Oral Dosing with [^{14}C]Pyridoxine. *Wilhelmina Bode, Johannes A. J. Mocking and Henk van den Berg* 1462

Dietary Arginine Deficiency Alters Flux of Glutamine and Urea Cycle Intermediates Across the Portal-Drained Viscera and Liver of Rats. *Wilbutra J. Hartman and Ronald L. Prior* 1472

Energy Expenditure in Rats Maintained With Intravenous or Intragastric Infusion of Total Parenteral Nutrition Solutions Containing Medium- or Long-Chain Triglyceride Emulsions. *John B. Lasekan, Jannette Rivera, Matt D. Hirvonen, Richard E. Keesey and Denise M. Ney* 1483

Biotin Deficiency in Rats: Disturbances of Leucine Metabolism are Detectable Early. *Nell I. Mock and Donald M. Mock* 1493

Incomplete Digestion of Legume Starches in Rats: A Study of Precooked Flours Containing Retrograded and Physically Inaccessible Starch Fractions. *Juscelino Tovar, Inger M. Björck and Nils-Georg Asp* 1500

Short-Chain Fatty Acid Production and Fiber Degradation by Human Colonic Bacteria: Effects of Substrate and Cell Wall Fractionation Procedures. *Leslie D. Bourquin, Evan C. Titgemeyer, Keith A. Garleb and George C. Fahey, Jr.* 1508

Oleic Acid (18:1) in Plasma, Liver and Brain Myelin Lipid of Piglets Fed from Birth with Formulas Differing in 18:1 Content. *France M. Rioux and Sheila M. Innis* 1521

Nutrient Requirements and Interactions

Dietary α-Linolenic Acid Deficiency and Early Uterine Development in Female Rats. *J. M. Fayard, L. Timouyasse, P. Guesnet, G. Durand, G. Pascal and C. Laugier* 1529
Perinatal Protein Deprivation Enhances the Anticonflict Effect Measured After Chronic Ethanol Administration in Adult Rats. *Nancy E. Córdoba, Gabriel R. Cuadra, Jorge D. Brioni and Otto A. Orsingher* 1536
Type I Iodothyronine Deiodinase Activity after High Selenium Intake, and Relations between Selenium and Iodine Metabolism in Rats. *Dietrich Behne, Antonios Kyriakopoulos, Hildegard Gessner, Barbara Walzog and Harald Meinhold* 1542
Copper Deficiency Alters Vasodilation in the Rat Cremaster Muscle Microcirculation. *Dale A. Schuschke, Malcom W. R. Reed, Jack T. Saari and Frederick N. Miller* 1547
Modification of the Clastogenic Activity of X-Ray and 6-Mercaptopurine in Mice by Prefeeding with Vitamins C and E. *Youichi Odagiri, Toshiaki Karube, Hiroo Katayama and Kazuo Takemoto* .. 1553
Soluble Dietary Fiber and Cholesterol Influence In Vivo Hepatic and Intestinal Cholesterol Biosynthesis in Rats. *Bahram H. Arjmandi, Jean Craig, Shaheen Nathani and Robert D. Reeves* 1559
Cardiac Ultrastructural and Electrophysiological Abnormalities in Postweanling Copper-Restricted and Copper-Repleted Rats in the Absence of Hypertrophy. *Jeannette Davidson, Denis M. Medeiros and Robert L. Hamlin* 1566
Zinc Nutritional Status Modulates the Response of 1,25-Dihydroxycholecalciferol to Calcium Depletion in Rats. *Paul L. Kimmel, Christopher T. Gubish, Don W. Watkins and Craig B. Langman* 1576
Dietary Sucrose but not Starch Promotes Protein-Induced Differences in Rates of VLDL Secretion and Plasma Lipid Concentrations in Rats. *Maria Pfeuffer and C. A. Barth* 1582
Low Protein Diets Potentiate Lithocholic Acid–Induced Cholestasis in Rats. *Lita Villalon, Beatriz Tuchweber and Ibrahim M. Yousef* 1587

Announcements 1597

No. 8 AUGUST 1992

EDITORIAL COMMENT

Comments from the Editor 1599

ARTICLES

Biochemical and Molecular Roles of Nutrients

Mouse Peritoneal Macrophage Prostaglandin E_1 Synthesis is Altered by Dietary Gamma-Linolenic Acid. *Yang-Yi Fan and Robert S. Chapkin* 1600
Dietary Lipid Regulates the Amount and Functional State of UDP-Glucuronosyltransferase in Rat Liver. *Andrew J. Dannenberg and David Zakim* 1607
Development Stages and Energy Restriction Affect Cellular Oncogene Expression in Tissues of Female Rats. *Myunggi Baik, Chang B. Choi, Wanda L. Keller and Chung S. Park* 1614
Dietary Selenium Stabilizes Glutathione Peroxidase mRNA in Rat Liver. *Merrill J. Christensen and Kenneth W. Burgener* 1620
Lung Eicosanoid Synthesis is Affected by Age, Dietary Fat and Vitamin E. *Simin Nikbin Meydani, Alice C. Shapiro, Mohsen Meydani and Jeffrey B. Blumberg* 1627
Lymph Chylomicron Size is Modified by Fat Saturation in Rats. *Theodore J. Kalogeris and Jon A. Story* 1634

Community and International Nutrition

Prolonged Lactation Contributes to Depletion of Maternal Energy Reserves in Filipino Women. *Linda S. Adair and Barry M. Popkin* 1643

Nutrient Metabolism

Meats and Fish Consumed in the American Diet Contain Substantial Amounts of Ether-Linked Phospholipids. *Merle L. Blank, Edgar A. Cress, Zigrida L. Smith and Fred Snyder* 1656
Dietary Fatty Acids Temporarily Alter Liver Very Long-Chain Fatty Acid Composition in Mice. *Debra J. Boles and William B. Rizzo* 1662
Administration Modalities and Intestinal Lymph Absorption of Arachidonic Acid in Rats. *Catherine Pavero, Andre Bernard and Hélène Carlier* 1672
Inbred Strains of Rats have Differential Sensitivity to Dietary Phosphorus–Induced Nephrocalcinosis. *J. Ritskes-Hoitinga, J.N.J.J. Mathot, L.F.M. Van Zutphen and A. C. Beynen* 1682
The Splanchnic Organs, Liver and Kidney have Unique Roles in the Metabolism of Sulfur Amino Acids and Their Metabolites in Rats. *Rolando A. G. Garcia and Martha H. Stipanuk* 1693
Medium-Chain Triacylglycerols Enhance Release of Cholecystokinin in Chicks. *Remedios T. Mabayo, Mitsuhiro Furuse, Sung-Ik Yang and Jun-Ichi Okumura* 1702

Nutrition, Pharmacology and Toxicology

Increases in Serum Sphingosine and Sphinganine and Decreases in Complex Sphingolipids in Ponies Given Feed Containing Fumonisins, Mycotoxins Produced by *Fusarium moniliforme*. *Elaine Wang, P. Frank Ross, Terrance M. Wilson, Ronald T. Riley and Alfred H. Merrill, Jr.* 1706

Nutrient Requirements and Interactions

Abomasal Infusion of Casein Enhances Nitrogen Retention in Somatotropin-Treated Steers. *Karen L. Houseknecht, Dale E. Bauman, Danny G. Fox and Donald F. Smith* 1717
Chronic Food Restriction Amplifies the Effect of Lactation on the Duration of Postpartum Anestrus in Rats. *Michelle K. McGuire, W. R. Butler and Kathleen M. Rasmussen* 1726
Dietary Fish Protein Modulates High Density Lipoprotein Cholesterol and Lipoprotein Lipase Activity in Rabbits. *Nathalie Bergeron, Yves Deshaies and Hélène Jacques* 1731
Prolonged Acetaminophen Ingestion by Mice Fed a Methionine-Limited Diet does not Affect Iron-Induced Liver Lipid Peroxidation or *S*-Adenosylmethionine. *Marla M. Reicks, Floyd R. Fullerton, Lionel A. Poirier, Paul Whittaker and John N. Hathcock* 1738
Inanition May Reduce Alkaline Phosphatase Activity in Liver and Intestine of Zinc-Deficient Mice. *Satish Kumar Taneja and Poonam Arya* 1744

LETTER TO THE EDITOR

(*n*-3) Fatty Acids, Tissue Lipid Peroxidation and Tocopherol Status. *Mohsen Meydani and Simin N. Meydani* 1748
Reply to the Letter of M. Meydani and S. N. Meydani. *Mary R. L'Abbé* 1749

BOOK REVIEW

The Vitamins. Gerald F. Combs, Jr. *Reviewed by Robert D. Reynolds* 1750

Announcements 1751

No. 9 SEPTEMBER 1992

CRITICAL REVIEW

Nutrient Intake as a Time Signal for Circadian Rhythm. *B. Connor Johnson* 1753

ARTICLES

Biochemical and Molecular Roles of Nutrients

Postnatal Selenium Repletion Protects Lungs of Neonatal Rats from Hyperoxia. *Hye Young Kim, Mary F. Picciano and Matthew A. Wallig* 1760
Dietary β-Carotene Reduces Serum Lipid Concentrations in Spontaneously Hypertensive Rats Fed a Vitamin A–Fortified and Cholesterol-Enriched Diet. *Alan C. Tsai, Haifa A. Mazeedi and Mostafa S. Mameesh* 1768

Community and International Nutrition

Growth Charts Only Marginally Improved Maternal Learning from Nutrition Education and Growth Monitoring in Lesotho. *Marie T. Ruel and Jean-Pierre Habicht* 1772

Human and Clinical Nutrition

Tryptophan Intake Influences Infants' Sleep Latency. *Lois A. Steinberg, Nancy C. O'Connell, Terry F. Hatch, Mary Frances Picciano and Leann L. Birch* 1781
Correlations of Vitamin A and E Intakes with the Plasma Concentrations of Carotenoids and Tocopherols among American Men and Women. *Alberto Ascherio, Meir J. Stampfer, Graham A. Colditz, Eric B. Rimm, Lisa Litin and Walter C. Willett* 1792

Nutrient Metabolism

Adipocyte Insulin Responsiveness in Female Sprague-Dawley Rats Fed a Low Fat Diet Containing a Fat-Mimetic Carbohydrate. *Ruth B. S. Harris* 1802
Insulin Insensitivity Is Rapidly Reversed in Rats by Reducing Dietary Fat from 40 to 30% of Energy. *Ruth B. S. Harris and Helen Kor* 1811
Total Parenteral Nutrition with Short- and Long-Chain Triglycerides: Triacetin Improves Nitrogen Balance in Rats. *James W. Bailey, Rebekah L. Barker and Michael D. Karlstad* 1823
Neonatal Genetically Lean and Obese Pigs Respond Differently to Dietary Cholesterol. *Bruce W. Patterson, William W. Wong, Hwai-Ping Sheng, Harry J. Mersmann, William Insull, Peter D. Klein, Marta L. Fiorotto and Wilson G. Pond* 1830
Modification of Triacylglycerides and Apolipoprotein B in Rats Fed Diets Containing Whole Milk, Skim Milk and Milk Proteins. *Gloria Marquez-Ruiz, B. Diane Richter and Barbara O. Schneeman* .. 1840
Folic Acid, 5-Methyl-Tetrahydrofolate and 5-Formyl-Tetrahydrofolate Exhibit Equivalent Intestinal Absorption, Metabolism and In Vivo Kinetics in Rats. *Sneh D. Bhandari and Jesse F. Gregory III.* 1847
Modification of Plasma and Hepatic Lipids of Guinea Pigs by Feeding High Oleic Acid Pork Compared with Regular Pork. *Tammi Tinker Flynn, Karen S. Kubena and Ki S. Rhee* 1855
Efficiency of Dietary Methionine Utilization by Young Pigs. *Thau Kiong Chung and David H. Baker* 1862
Rat Serum Osteocalcin Concentration Is Determined by Food Intake and Not by Inflammation. *Biram NDiaye, Claudine Prudhon, Huguette Guillozo and Daniel Lemonnier* 1870

Nutrient Requirements and Interactions

Consumption of Milk from Cows Immunized with Intestinal Bacteria Influences Age-Related Changes in Immune Competence in Mice. *Atsunori Ishida, Yasunobu Yoshikai, Shinji Murosaki, Chiharu Kubo, Yoshio Hidaka and Kikuo Nomoto* 1875
Carbohydrate Intake Determines Pancreatic Acinar Amylase Activity and Release despite Chronic Alcoholemia in Rats. *Hariharan Sankaran, Clifford W. Deveney, Edward C. Larkin and G. Ananda Rao* 1884
Bioavailability of Vitamin B-6 in Pregnant Rats. *Jing W. Wang and Paula R. Trumbo* 1892
β-Carotene, Retinol and Retinyl Ester Concentrations in Serum and Selected Tissues of Ferrets Fed β-Carotene. *Judy D. Ribaya-Mercado, James G. Fox, William D. Rosenblad, Michael C. Blanco and Robert M. Russell* 1898
Dietary Ascorbic Acid Depresses Plasma and Low Density Lipoprotein Lipid Peroxidation in Genetically Scorbutic Rats. *Hiroshi Kimura, Yukio Yamada, Yasuhiko Morita, Hitoshi Ikeda and Takao Matsuo* 1904
Inhibitory Effect of Soybean Protein vs. Casein on Apparent Absorption of Magnesium in Rats Is Due to Greater Excretion of Endogenous Magnesium. *Elizabeth J. Brink, Gerrit J. Van Den Berg, Roelof Van Der Meer, Hubert Th. Wolterbeek, Pieter R. Dekker and Anton C. Beynen* 1910

ISSUES AND OPINIONS IN NUTRITION

Does Food Restriction Retard Aging by Reducing Metabolic Rate? *William S. Lynn and James C. Wallwork* 1917

Proceedings of the Fifty Sixth Annual Meeting of the American Institute of Nutrition 1919

ARTICLES

Biochemical and Molecular Roles of Nutrients

Turnover of Cyclic Adenosine-5′-Monophosphate Is Elevated in Skeletal Muscle of Vitamin E–Deficient Rabbits. *Uma S. Srivastava, Louise Robin and Manohar L. Thakur* 1935
Increasing the Dietary (*n*-3) to (*n*-6) Polyunsaturated Fatty Acid Ratio Increases Tumor Necrosis Factor Production by Murine Resident Peritoneal Macrophages without an Effect on Elicited Peritoneal Macrophages. *Ingibjörg Hardardóttir and John E. Kinsella* 1942
β-Adrenergic Receptor–Mediated Functions in Porcine Adipose Tissue Are Not Affected Differently by Saturated vs. Unsaturated Dietary Fats. *Harry J. Mersmann, Ronald L. McNeel, J. Christian Morkeberg, Alla Shparber and David L. Hachey* 1952
Dietary Polyunsaturated to Saturated Fatty Acid Ratio Alters Hepatic LDL Transport in Cynomolgus Macaques Fed Low Cholesterol Diets. *Charles E. Hunt, G. Michael Funk and T. J. Vidmar* 1960

Nutrient Metabolism

Low Density Lipoprotein Receptor Activity Is Modulated by Soybean Globulins in Cell Culture. *Maria R. Lovati, Cristina Manzoni, Alberto Corsini, Agnese Granata, Roberta Frattini, Remo Fumagalli and Cesare R. Sirtori* 1971

Dose-Response Relationships Between Dietary (*n*-3) Fatty Acids and Plasma and Tissue Lipids, Steroid Excretion and Urinary Malondialdehyde in Rats. *Remi De Schrijver, Daniel Vermeulen and Veerle Daems* 1979
^{65}Zinc Metabolism Is Altered During Diabetic Pregnancy in Rats. *Janet Y. Uriu-Hare, Robert M. Walter, Jr. and Carl L. Keen* 1988
Secretion of Vitamin A and Retinol-Binding Protein into Plasma Is Depressed in Rats by *N*-(4-Hydroxyphenyl)retinamide (Fenretinide). *John Edgar Smith, Deborah Carpenter Lawless, Michael H. Green and Richard C. Moon* 1999

Nutrient Requirements and Interactions

Varied Protein Intake Alters Glutathione Metabolism in Rats. *Susan Hum, Kristine G. Koski and L. John Hoffer* 2010
Dietary Fat Type and Cholesterol Quantity Interact to Affect Cholesterol Metabolism in Guinea Pigs. *Emme C. K. Lin, Maria Luz Fernandez and Donald J. McNamara* 2019
Estimation of the Niacin Requirements for Tilapia Fed Diets Containing Glucose or Dextrin. *Shi-Yen Shiau and Gow-Shyang Suen* 2030
Changes in Serum and Lipoprotein Fatty Acids of Growing Rats Fed Protein-Deficient Diets with Low or Adequate Linolenic Acid Concentrations. *Mahmoud Bouziane, Josiane Prost and Jacques Belleville* 2037

ISSUES AND OPINIONS

Using Animals to Assess Bioavailability of Minerals: Implications for Human Nutrition. *J. L. Greger* 2047

LETTER TO THE EDITOR

Letter of Concern Regarding a Possible Shortage of Separated Isotapes. *Steven A. Abrams, Peter D. Klein, Vernon R. Young and Dennis M. Bier* 2053

BOOK REVIEW

Founders of Nutrition Science. William J. Darby and Thomas H. Jukes, editors. *Reviewed by Kenneth J. Carpenter* 2054
Announcements 2055

Energy Expenditure and Requirements in Aging Humans. *Eric T. Poehlman* 2057

ARTICLES

Biochemical and Molecular Roles of Nutrients

Cysteine and Glycine Supplementation Modulate the Metabolic Response to Tumor Necrosis Factor α in Rats Fed a Low Protein Diet. *R. F. Grimble, A. A. Jackson, C. Persaud, M. J. Wride, F. Delers and R. Engler* 2066
Fatty Acid Composition and Fatty Acid Elongase and Stearoyl-CoA Desaturase Activities in Tissues of Steers Fed High Oleate Sunflower Seed. *Joyce H. P. Chang, David K. Lunt and Stephen B. Smith.* 2074
Thermogenic Capacity of Brown Adipose Tissue Is Reduced in Rats Fed a High Protein, Carbohydrate-Free Diet. *Marica N. Brito, Nilton A. Brito and Renato H. Migliorini* 2081
Protective Effect of Ascorbic Acid on the Breakdown of Proteins Exposed to Hydrogen Peroxide in Chicken Skeletal Muscle. *Oksana M. Gecha and Julie M. Fagan* 2087
Rat Hepatic Coenzyme A Is Redistributed in Response to Mitochondrial Acyl-Coenzyme A Accumulation. *Eric P. Brass and Laura J. Ruff* 2094
Copper-Marginal and Copper-Deficient Diets Decrease Aortic Prostacyclin Production and Copper-Dependent Superoxide Dismutase Activity, and Increase Aortic Lipid Peroxidation in Rats. *Sally K. Nelson, Ching-Jang Huang, Melvin M. Mathias and Kenneth G. D. Allen* 2101
Plasma Esterase-1 (ES-1) Activity in Rats Is Influenced by the Amount and Type of Dietary Fat, and Butyryl Cholinesterase Activity by the Type of Dietary Fat. *H. A. Van Lith, M. Haller, G. Van Tintelen, L.F.M. Van Zutphen and A. C. Beynen* 2109
Selenium Deficiency Alters the Lipoxygenase Pathway and Mitogenic Response in Bovine Lymphocytes. *Yu-Zhang Cao, Jane F. Maddox, Andrea M. Mastro, Richard W. Scholz, George Hildenbrandt and C. Channa Reddy* 2121
Copper and Selenium Deficiencies Do Not Enhance the Cardiotoxicity in Rats Due to Chronic Doxorubicin Treatment. *Joan G. Fischer, Randall L. Tackett, E. W. Howerth and Mary Ann Johnson* . 2128
Prenatal Protein Malnutrition in Rats Enhances Serotonin Release from Hippocampus. *Jin-Chung Chen, John Tonkiss, Janina R. Galler and Ladislav Volicer* 2138
Expression of Retinoic Acid Nuclear Receptors and Tissue Transglutaminase Is Altered in Various Tissues of Rats Fed a Vitamin A–Deficient Diet. *Ajit K. Verma, Alex Shoemaker, Ruby Simsiman, Mitchell Denning and Richard D. Zachman* 2144

Human and Clinical Nutrition

Modified Eggs Are Compatible with a Diet that Reduces Serum Cholesterol Concentrations in Humans. *Jeffrey L. Garwin, John M. Morgan, Richel L. Stowell, Manette P. Richardson, Marianna C. Walker and David M. Capuzzi* 2153
Uptake of Lycopene and Its Geometrical Isomers Is Greater from Heat-Processed than from Uprocessed Tomato Juice in Humans. *Wilhelm Stahl and Helmut Sies* 2161

Nutrient Metabolism

Contribution of Skin to Whole-Body Protein Synthesis in Rats at Different Stages of Ma- turity. *Christiane Obled and Maurice Arnal* 2167
Comparison of Measured Carbon Dioxide Production with That Obtained by the Isotope Dilution Technique in Neonatal Pigs: Observations on Site of Infusion. *Norlin J. Benevenga, Jack Odle and Gary L. Asche* 2174
Evaluation of [1-^{14}C]-Medium-Chain Fatty Acid Oxidation by Neonatal Piglets Using Continuous-Infusion Radiotracer Kinetic Methodology. *Jack Odle, Norlin J. Benevenga and Thomas D. Crenshaw* 2183
Lipid Peroxidation Products Are Elevated in Fish Oil Diets Even in the Presence of Added Antioxidants. *Michael J. Gonzalez, J. Ian Gray, Rachel A. Schemmel, LeRoy Dugan, Jr. and Clifford W. Welsch* 2190
Dietary Sucrose Enhances Insulin Secretion of Aging Fischer 344 Rats. *Sally L. Hara, Rodney C. Ruhe, Donald L. Curry and Roger B. McDonald* 2196
Uptake of 5-Formyltetrahydrofolate in Isolated Rat Liver Mitochondria Is Carrier-Mediated. *Donald W. Horne, Rosalind S. Holloway and Hamid M. Said* 2204

The Quality and Quantity of Dietary Protein Affect Brain Protein Synthesis in Rats. *Hidehiko Yokogoshi, Kazutoshi Hayase and Akira Yoshida* 2210
Increasing Intake of Soybean Protein or Casein, but Not Cod Meal, Reduces Nephrocalcinosis in Female Rats. *Xizhong Zhang and Anton C. Beynen* 2218
Endogenous Allantoin Excretion in Response to Changes in Protein Supply in Sheep. *Xue Bin Chen, Sharif A. Chowdhury, F. Dickon DeB. Hovell, E. Robert Ørskov and David J. Kyle* 2226
Altered Zinc Metabolism Occurs in Murine Lethal Milk Syndrome. *Doh-Yeel Lee, Neil F. Shay and Robert J. Cousins* 2233

Nutritional Models

Simulation of Nutrient Digestion, Absorption and Outflow in the Rumen: Model Description. *Jan Dijkstra, Heather D.St.C. Neal, David E. Beever and James France* 2239
Simulation of Nutrient Digestion, Absorption and Outflow in the Rumen: Model Evaluation. *Heather D.St.C. Neal, Jan Dijkstra and Margaret Gill* 2257

Nutrient Requirements and Interactions

Dietary Casein and Soybean Protein Affect the Concentrations of Serum Cholesterol, Triglyceride and Free Amino Acids in Rats. *Takao Horigome and Yan S. Cho* 2273
Fat Intake and Clofibrate Administration Have Interrelated Effects on Liver Cholesterol Concentration and Serum Butyryl Cholinesterase Activity in Rats. *H. A. Van Lith, M. Haller, G. Van Tintelen, A. G. Lemmens, L.F.M. Van Zutphen and A. C Beynen* 2283
Barley β-Glucans Alter Intestinal Viscosity and Reduce Plasma Cholesterol Concentrations in Chicks. *Linji Wang, Rosemary K. Newman, C. Walter Newman and Petrea J. Hofer* 2292
Structure of Dietary Pectin, Iron Bioavailability and Hemoglobin Repletion in Anemic Rats. *Meehye Kim and Mokhtar T. Atallah* 2298

Announcements 2306

No. 12 DECEMBER 1992

ARTICLES

Biochemical and Molecular Roles of Nutrients

Leucine Excess under Conditions of Low or Compensated Aminoacidemia Does Not Change Skeletal Muscle and Whole-Body Protein Synthesis in Suckling Lambs during the Postprandial Period. *Isabelle Papet, Françoise Glomot, Jean Grizard and Maurice Arnal* 2307
Short-Term Regulation of the Renal Vitamin D Receptor in Rats by 1,25-Dihydroxycholecalciferol Is Calicum Insensitive. *Ann Uhland-Smith and Hector F. DeLuca* 2316
Protein Kinase C Is Activated and Diacylglycerol Is Elevated in Epidermal Cells from Sencar Mice Fed High Fat Diets. *Myeon Choe, Edward S. Kris, Rajesh Luthra, James Copenhaver, Jill C. Pelling, Thomas E. Donnelly and Diane F. Birt* 2322
Prickly Pear (*Opuntia* sp.) Pectin Reverses Low Density Lipoprotein Receptor Suppression Induced by a Hypercholesterolemic Diet in Guinea Pigs. *Maria Luz Fernandez, Emme C. K. Lin, Augusto Trejo and Donald J. McNamara* 2330

Human and Clinical Nutrition

Sweet Lupin Protein Quality in Young Men. *Juan I. Egaña, Ricardo Uauy, Ximena Cassorla, Gladys Barrera and Enrique Yañez* 2341

Nutrient Metabolism

Alkaline Phosphatase Activity and Pyridoxal Phosphate Concentrations in the Milk of Various Species. *Stephen P. Coburn, J. Dennis Mahuren, Thomas A. Pauly, Karen L. Ericson and Douglas W. Townsend* 2348
Comparative Metabolism and Requirement of Vitamin K in Chicks and Rats. *Birgit H. Will, Yuji Usui and J. W. Suttie* 2354
Neither Dietary Fructose, Dextrose nor Starch Modifies In Vitro Glycerol Release by Adipocytes from Streptozotocin-Diabetic Rats. *Jing Luo, Salwa W. Rizkalla, Catherine Alamowitch, Josette Boillot, Françoise Bruzzo, Annie Chevalier and Gerard Slama* 2361
An Extract of *Gymnema sylvestre* Leaves and Purified Gymnemic Acid Inhibits Glucose-Stimulated Gastric Inhibitory Peptide Secretion in Rats. *Tohru Fushiki, Ayako Kojima, Toshiaki Imoto, Kazuo Inoue and Etsuro Sugimoto* 2367
Placental Composition Does Not Respond to Changes in Maternal Dietary Carbohydrate Intake in Rats. *Louise Lanoue, Sandra Miniaci and Kristine G. Koski* 2374
Prevention of Immunologic Stress Contributes to the Growth-Permitting Ability of Dietary Antibiotics in Chicks. *Eugeni Roura, Josep Homedes and Kirk C. Klasing* 2383
Dietary Guar Gum Halts Further Renal Enlargement in Rats with Established Diabetes. *Daniel D. Gallaher, Judith M. Olson and Kinley Larntz* 2391
Phenylalanine Flooding Dose Procedure Is Effective in Measuring Intestinal and Liver Protein Synthesis in Sheep. *Bonita G. Southorn, John M. Kelly and Brian W. McBride* 2398
Erythrocyte Metallothionein Response to Dietary Zinc in Humans. *Elizabeth A. Thomas, Lynn B. Bailey, Gail A. Kauwell, Doh-Yeel Lee and Robert J. Cousins* 2408
5-Methyltetrahydrofolate Is Reabsorbed and Metabolized in Isolated Perfused Rat Kidney. *Robert T. Muldoon, Bernard H. Eisenga, Khandoker M. Morshed and Kenneth E. McMartin* 2415
HL-60 Cells Can Be Made Copper Deficient by Incubating with Tetraethylenepentamine. *Susan S. Percival and Meri Layden-Patrice* 2424
Intestinal Amino Acid and Monosaccharide Transport in Suckling Pigs Fed Milk Replacers with Different Sources of Carbohydrate. *Yvonne M. Vega, Anna A. Puchal and Randal K. Buddington* 2430
Sesame Seed Lignans and γ-Tocopherol Act Synergistically to Produce Vitamin E Activity in Rats. *Kanae Yamashita, Yuuko Nohara, Kumiko Katayama and Mitsuo Namiki* 2440

Nutrient Requirements and Interactions

Dietary Corn Oil and Guar Gum Stimulate Intestinal Crypt Cell Proliferation in Rats by Independent but Potentialy Synergistic Mechanisms. *J. D. Pell, J. M. Gee, G. M. Wortley and I. T. Johnson* 2447
Soluble Wheat Pentosans Exhibit Different Anti-Nutritive Activities in Intact and Cecectomized Broiler Chickens. *Mingan Choct, Geoffrey Annison and Rodney P. Trimble* 2457
Reduction of Phytic Acid in Soybean Products Improves Zinc Bioavailability in Rats. *J. R. Zhou, E. J. Fordyce, V. Raboy, D. B. Dickinson, M.-S. Wong, R. A. Burns and J. W. Erdman, Jr.* 2466
Estimation of the Dietary Riboflavin Required to Maximize Tissue Riboflavin Concentration in Juvenile Shrimp (*Penaeus monodon*). *Houng-Yung Chen and Gloria Hwang* 2474
